

## SES Water's 2021-22 Charges

### Statement of Significant Year-on-Year Changes

Our charging year runs from 1 April to 31 March. We will publish our household charges scheme for the next year, beginning 1 April 2021, on 13 January 2021. These charges have been calculated in accordance with our Final Determination and the subsequent "blind-year adjustments" as agreed with Ofwat.

We confirm that we are not expecting any bill increases of more than 5% from the current year for the supply of water and there are no changes to our charging policy. On average household bills are decreasing by approximately 4%. However, changes in the bill will depend on your individual circumstances, for example whether you have a meter or not and how much water you use.

This statement applies to our household customers. Business customers seeking information about their charges should refer to our published Wholesale Charges Schedule and talk to their retailer about the impact this will have on their bills from April 2021.

Signed on behalf of the Board of Directors, 11 January 2021.
