

SES Water's 2020/21 Charges

Statement of Significant Year-on-Year Changes

Our charging year runs from 1 April to 31 March. We will publish our household charges scheme for the next year, beginning 1 April 2020, on 3 February 2020. These charges have been calculated in accordance with our Final Determination.

We confirm that we are not expecting any bill increases of more than 5% from the current year for the supply of water and there are no changes to our charging policy. On average household bills are decreasing by 5.9%. However, changes in the bill will depend on your individual circumstance, for example whether you have a meter or not and how much water you use.

This statement applies to our household customers. Business customers seeking information about their charges should refer to our published Wholesale Charges Schedule and talk to their retailer about the impact this will have on their bills from April.

Anthony Ferrar
(Managing Director)

A handwritten signature in black ink that reads 'Anthony Ferrar'.

Murray Legg
(Senior Independent Non-executive
Director and Chairman of the Audit
Committee)

A handwritten signature in blue ink that reads 'Murray Legg'.
